

## WORK EXPERIENCE

### Conversational Data Analysis With LLMs • Internship

Sep 2025 - Oct 2025

AICTE And VOIS For Tech University Engagement Program, Virtual

1. Learned how to use Large Language Models (LLMs) for conversational data processing and analysis.
2. Gained understanding of prompt engineering, context-driven responses, and real-time insights extraction using AI-powered natural language systems.

### Zero Trust Cloud Security Virtual Internship • Internship

Jul 2025 - Sep 2025

AICTE And ZScalar, Virtual

1. Gained hands-on understanding of Zero Trust architecture, cloud security principles, secure network access, and identity-based authorization models.
2. Completed practical labs on secure backend communication and cloud infrastructure protection.

### Technical Assistant

Jan 2025 - May 2025

SNJB's Late Sau. Kantabai Bhavarlalji Jain College Of Engineering, Chandwad

1. Created and managed digital certificates for students in various college activities.
2. Maintained daily and weekly assessment.
3. Assisted student for regular activity and exam related notice.

## EDUCATION

### Bachelor of Engineering (B.E), Computer Science & Engineering

2023 - 2027

SNJB's Late Sau. Kantabai Bhavarlalji Jain College Of Engineering, Chandwad

## TRAININGS / CERTIFICATIONS

### Connecting To MongoDB In Java

Sep 2025

MongoDb University, Virtual

### Embedded System For Internet Of Things

Aug 2025 - Sep 2025

Udemy Online, Virtual

### IOT Design Methodology

Aug 2025 - Sep 2025

Udemy Online, Virtual

### Internet Of Things: Concept

Aug 2025

Udemy Online, Virtual

### Fundamentals Of Cybersecurity

Jul 2025 - Sep 2025

ZScalar Training, Virtual

### Programming In Java

Jan 2025 - May 2025

NPTEL, Nashik

## PROJECTS

### Employee Management System

Sep 2025 - Oct 2025

1. Developed a backend-driven Java-MySQL system for managing employee data.
2. Designed relational tables and implemented CRUD operations using JDBC
3. Ensured secure backend performance through data validation and debugging for optimized response time.

### Hospital management system

Aug 2025 - Sep 2025

1. Built a Java-MySQL backend system for appointment, billing, and patient management.
2. Designed relational database tables with foreign key constraints for data consistency.
3. Implemented backend logic for billing automation and scheduling using SQL queries.

## Develop a Woman Safety App

Feb 2025 - May 2025

1. Resolved technical issues and performed debugging in Flutter projects using Dart.
2. Collaborated with team members to manage version control, app development, presentation and also lead team Applied cloud technologies and Firebase (JSON-based) servers for efficient database management in projects.

## SKILLS

- |            |                 |                   |
|------------|-----------------|-------------------|
| • Java     | • JDBC          | • MySQL           |
| • Python   | • LaTeX         | • C++ Programming |
| • MongoDB  | • PostgreSQL    | • C Programming   |
| • Git      | • Spring Boot   | • REST API        |
| • GitHub   | • HTML          | • APIs            |
| • Firebase | • IntelliJ IDEA | • VS Code         |
